## Coronavirus update for Victoria

Victoria has recorded 35 new cases of coronavirus since yesterday, with the total number of cases now at 19,872.

The overall total has increased by 37. This is due to three cases being removed due to duplication and five cases added after being reclassified from negative to confirmed.

Within Victoria, 12 of the new cases are linked to outbreaks or complex cases and 23 are under investigation.

There have been seven new deaths from COVID-19 reported since yesterday. One man in his 70s, one woman in her 80s, one man in his 80s, one woman in her 90s and three men in their 90s. Three of the deaths occurred prior to yesterday. One case was reclassified due to duplication resulting in a net increase of six.

All of today's seven deaths are linked to known outbreaks in aged care facilities. To date, 729 people have died from coronavirus in Victoria.

The average number of cases diagnosed in the last 14 days for metropolitan Melbourne is 54.4 and regional Victoria is 3.9. The rolling daily average case number is calculated by averaging out the number of new cases over the past 14 days.

The total number of cases from an unknown source in the last 14 days is 94 for metropolitan Melbourne and three for regional Victoria. The 14-day period for the source of acquisition data ends 48 hours earlier than the 14-day period used to calculate the new case average due to the time required to fully investigate a case and assign its mode of acquisition.
